## Driving School with a New Take

To professional stunt drivers, it's about knowing what lies ahead. It's important to identify hazards. Novice drivers tend to underestimate the crash risks in hazardous situations. It's also important to know your limitations. Young drivers take more risks partly due to overconfidence in their abilities. Driver education with **XXXX** is developed to cover all aspects of driving.

## Learn Driving from Real Stunt Drivers

After completing our driving courses, each student will have a thorough understanding of what it takes to be a safe driver. All driving packages include comprehensive driving on city streets, as well as freeway, highway and canyon driving. Instructors at **XXXX** take a non-nonsense approach to help students identify and address some of the most dangerous situations on the road:

- Cell Phone Talking and Texting
- Driving under the Influence
- Distracting Situations with Peers
- Failing to Wear Seat Belts
- Blind Spots
- Hydroplaning
- Speeding
- Tailgating
- Violating Traffic Signals
- Illegal Turns
- Passing Dangerously
- Failing to Yield to Pedestrians and Bikes

## Standing Out from Other Driving Schools

Students leave **XXXX** with more than basic skills. They gain the knowledge and confidence needed to drive defensively. More than anything, that takes time. Teaching your own children can be a daunting task, with at least 50 hours of supervised practice driving mandated by the state of **XXXX**. Rest easy with your children learning from **XXXX**.

**XXXX** founder **XXXX** is a professional stunt driver, stunt coordinator and director with more than 40 years of experience in the industry.
